

Paramount Motorsports
Osborn Racing & Eric Barron Motorsports Team Up for 2011

San Diego, CA - 1/24/11 - It has become official, professional off road racing teams Osborn Racing & Eric Barron Motorsports are combining for the 2011 race season under the name Paramount Motorsports. Together Paramount Motorsports will campaign up to 6 short course vehicles this season including an Unlimited/Pro-4, Unlimited/Pro-Lite, 2 UTV Rhino SR1's, and 2 Modified Trophy Karts. While it is still undecided as to exactly what Pro Series' Paramount Motorsports will commit to racing in we do know that a portion of the Paramount Motorsports team will in fact participate in the Southern California Lucas Oil Regional Series at Glen Helen Raceway. When speaking with Osborn Racing Team Owner Kenny Osborn he was very optimistic that they will soon be announcing what race series or series' they will plan to commit too. Paramount Motorsports confirmed team drivers will consist of Eric Barron, Ryan Beat, and Bryan Osborn.

As a team Paramount Motorsports will combine facilities providing them with a 3000sq.ft shop in El Cajon, CA and another 6000sq.ft. shop in Ramona, CA. In addition to the teams shops Paramount also brings along a 54ft race semi/ trailer for which they will use at a majority of their race events. The use of this mobile race shop will not only improve their track-side pit operations but will also provide another tangible marketing piece for the team and their sponsors. During our conversation with Kenny Osborn it was obvious the team is very excited about the 2011 race season. The teams plan is to win a championship in each and every class they compete in and by all accounts are moving in the right direction to put themselves in the best position to do so.

Stay tuned to both www.UTVUnderground.com and the Paramount Motorsports media communications at www.ParamountMotorsports.com for upcoming announcements and team news from Paramount Motorsports.
